

DELTA BLOC International GmbH / ROAD SAFETY BARRIERS

DELTA BLOC International GmbH owns the know-how for a concrete safety barrier system which has been successfully tested according EN 1317. The intention is to transfer to licensees the Know-How behind the **DELATABLOC®** concrete safety barrier system together with the use of possible property rights.

- **DELTA BLOC International GmbH** is active in more than 37 countries worldwide.
- Tested to the highest European Standards, **DELATABLOC®** safety barriers are available in flexible, semi-rigid and rigid options.
- Since 1994 more than 170 full-scale crash tests have gone into their development.

DELTA BLOC International GmbH is interested in cooperation with Ministry, Local Authorities in Ukraine to develop the national standards and regulations and to increase road safety in order to save and secure lives on the roads.

The intention of DELTA BLOC International GmbH is to share the Know-How*) with local manufacturers (reinforced concrete factory) and share the state of the technology in road safety.

With an innovative way of collaboration both sides can create an added value for UKRAINE by use of:

- ✓ Local raw material
- ✓ Local workforce
- ✓ Local production
- ✓ Local transportation
- ✓ Local installation

BUT common responsibility

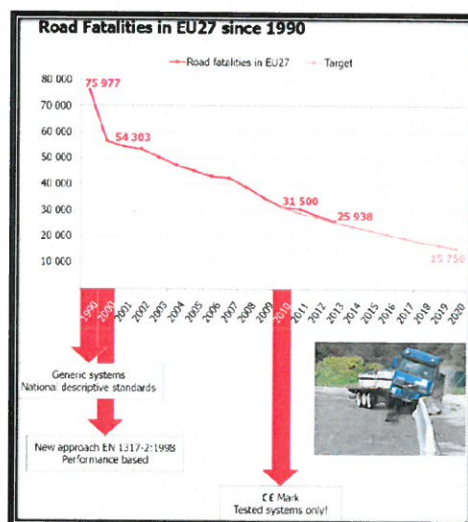

Safety barriers consists of many components and parts, formed together to that safety device that safes your life when something goes wrong.

It is more than just concrete and steel creating that safety performance you demand. It is creativity and Know-How of **DELATABLOC®** developing components, couplings and modern interlock mechanism that create that unbreakable chain of barriers for your personal protection.

STATISTIC ROAD SAFETY

Increase of Road Safety visible on Road Fatalities in EU27

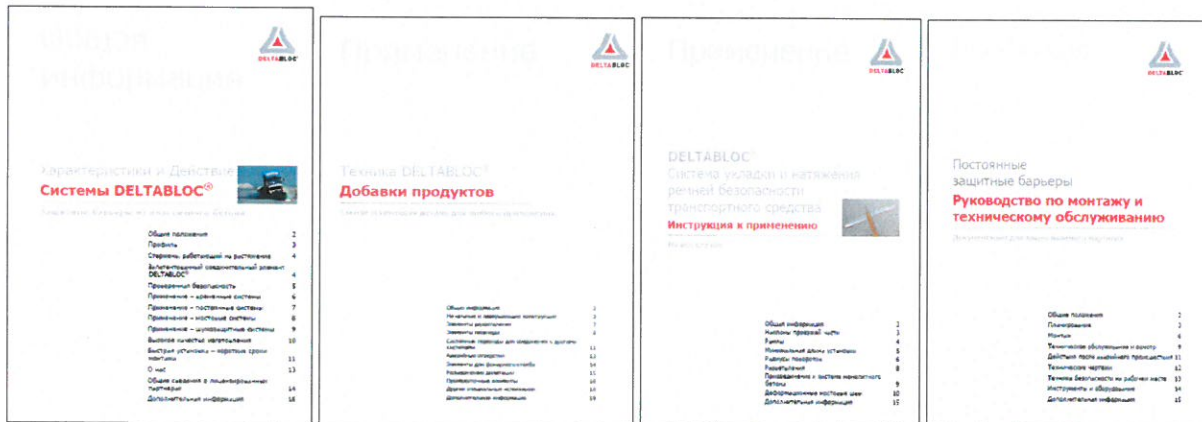

KNOW-HOW *)

DELATABLOC® CORE TECHNOLOGY & KNOW HOW

- Production drawings
- tested DELATABLOC® accessories and components
- Transport of DELATABLOC® accessories and components
- Production Manuals
- Installation and maintenance manuals
- Operating and Maintenance instructions
- Storage guidelines
- Damage classifications
- Repair manuals
- Implementation Manuals
- Test reports according EN 1317
- FPC – Factory Production Control before start of serial production and regularly
- [Factory Production Control] according or equal to EN 1317-5
- Standards for marking and confirming the traceability compliance certificate

Test Reports

If you have any further questions, please do not hesitate to contact us.

Yours sincerely
